SEPTEMBER 2026 CATALOG

PROFESSIONAL AUTO GLASS TOOLS

Precision Tools. Professional Results.

ELITE / COMPACT / BLADES / COMPLETE KITS

Designed for the Technician

Glass Rebel develops professional auto glass removal tools, blades and accessories around the needs of working technicians. Founded by a U.S. Navy combat veteran with hands-on auto glass experience, the company was built to improve the way technicians work — with faster blade changes, longer-lasting blades, more capable tool platforms and multiple blade positions for greater flexibility at the cut.

Glass Rebel tools are assembled in Sagle, Idaho, USA, with globally sourced components. Glass Rebel blades are designed in the USA and manufactured overseas.

One connection. A range of approaches.

Move between powered removal and manual finishing with a shared five-blade system. Select the platform, blade reach and profile that suit the urethane path and available clearance.

03 | CORDLESS REMOVAL PLATFORM

Glass Rebel Elite

A brushless 20V platform with tool-free blade changes and six indexed blade positions for professional windshield, back-glass and quarter-glass urethane work.

Shown with battery and blade. See the ordered configuration for included items.

3/8 in

stroke

~3,000

indexed blade positions

Set the angle for the cut

The 7/16-in hex quick-connect accepts all five Glass Rebel blades. Reposition the blade to suit the approach. The sheath-free system keeps the cutting area visible.

Bare tool excludes battery, charger, blades, case and sharpener.

Choose your setup

Bare tool: GR-ELITE-BT

Finished Elite with installed quick-connect and Battery Strap.

Dealer kit: GR-ELITE

Finished Elite, installed quick-connect, all five Glass Rebel blades, DEWALT DCB205 5Ah battery, DCB1104 4A charger, Two-Step Blade Sharpener, matching Elite Case and Battery Strap.

Complete kit checklist: page 6.

04 | ACCESS-FOCUSED PLATFORM

Glass Rebel Compact

The shared Glass Rebel blade system in a smaller platform for access around dashboards, corners and confined urethane channels. Brushless 20V power, tool-free blade changes and six indexed positions.

51.5 oz

07 | THE GLASS REBEL BLADE SYSTEM

Five blades. One connection.

Heat-treated stainless steel, a polished finish and a shared 7/16-in hex interface. Choose the nominal size and profile for the task; inspect blades before use and replace damaged blades.

Blade	Order reference	Application / nominal size
11.5-in Long Blade	GR-LB11	Extended reach for windshield and back-glass urethane paths.
8.5-in Medium Blade	GR-MB8	A balance of reach and maneuverability for everyday removal work.
6.5-in Short Blade	GR-SB6	Shorter reach for confined access and controlled finish work.
1.5-in Panel Blade	GR-PB1.5	1.5-in nominal width; 6.5-in nominal length. Wider panel profile.
1-in Panel Blade	GR-PB1	1-in nominal width; 6.5-in nominal length. Narrow channels and access points.

Six indexed positions let you adjust the blade orientation. Resharpen as part of routine edge maintenance; remove the blade from the tool before sharpening. Follow the care-and-use instructions.

Manual control & edge care

The Blade Handle

GR-BH-01

Use manual control for quarter-glass work, trimming and finish cuts where access or feel matters. The quick-connect accepts the same five Glass Rebel blade styles. Supplied as one handle; blades sold separately.

Two-Step Blade Sharpener

GR-SHARP

Two stages for routine blade-edge maintenance between removal jobs. Keep the sharpener in the case or service vehicle for convenient touch-ups.

Remove the blade from the tool before sharpening. Handle sharp edges with care and follow the care-and-use instructions.

09 | COMPLETE YOUR SETUP

Power, storage & accessories

DCB205 battery

Genuine DEWALT 20V MAX 5Ah lithium-ion battery. Battery only; charger sold separately.

DCB1104 charger

Genuine DEWALT 4A charger. Charger only; battery separate. Confirm destination input and plug.

Battery Strap

GR-STRAP. Helps secure the battery. Strap only; shown on Elite. Included with Elite, not Compact.

Elite Case

GR-Elite-Case

Model-specific carrying case. Case only.

CLOSED VIEW

12 | WARRANTY AND CARE

Support from Glass Rebel

1 year

limited tool warranty

Coverage begins on the date of delivery

For the original purchaser, against defects in materials and workmanship during normal professional use.

What the limited warranty covers

Glass Rebel hand and power tools carry a one-year limited warranty from the date of delivery for the original purchaser, covering defects in materials and workmanship during normal professional use. Blades and consumable/wear items are excluded. Repair or replacement is at Glass Rebel's discretion. Product registration is not required to activate warranty coverage. Distributor returns and exchanges are handled through the original point of sale; Glass Rebel provides warranty service directly. Glass Rebel's one-year tool warranty does not cover DEWALT batteries or chargers.

Before returning a tool

Contact sales@glassrebel.com or (208) 254-0006 for warranty authorization and return instructions before shipping. Have your proof of purchase and product information ready. Returns and exchanges for distributor purchases go through the original point of sale.

Care and full policy

Follow the current care-and-use instructions. Remove the battery before blade changes or maintenance, remove the blade before sharpening, and inspect the tool and blade before use. This catalog is not a replacement for the full operating instructions or warranty policy.
